East African Higher Education
Network on Sustainable and
Energy Efficient Campus
Development=SUCCEED Network

// What is SUCCEED Network?

The SUCCEED Project is focused on strengthening Institutional and Academic Capacity Building of the East African Higher Education Institutions in the field of Energy. The East African Higher Education Institutions, through the implementation of the project activities will contribute to boost the regional and national policies in this topic.

Specifically, it aims to encourage the partner universities to promote the development of sustainable and energy efficient campuses as 'living laboratories', being the main project results the establishment of a campus platform that will facilitate the exchange of knowledge and key actions for the promotion of energy access and efficiency.

// Main set of activities of the SUCCEED Network project:

Institutional Building Activities

To increase awareness, capacity building and improve the institutional frameworks with regards campus sustainability.

Academic Building Activities

To increase academic cooperation between the East African Partner Universities via an online platform on EE and RE.

Cooperation Building Activities

To strength cooperation activities in the field of energy between HEIs and relevant public and private stakeholders.

Networking and Sustainability Activities

To create a regional network of Higher Education Institutions on this relevant topic.

// Who are our main target groups?

- EA HEI's decision makers that decide upon Energy Efficiency and Sustainability matters.
- EA HEI's Academic staff that delivers educational programmes and can potentially increase the course offer in energy efficiency and renewable energies to students
- EA HEI's Management Staff that will be working in the Energy Efficiency Units that will be created and/or improved by the Succeed Network project activities.
- EA HEI's students that will be actively participating in the online courses
- National and Local Stakeholders from the Energy Sector

East African Higher Education Network on Sustainable and Energy Efficient Campus Development

// Why is SUCCEED Network Project so relevant for the East African Region?

Several official documents released by different governmental bodies reveals that the East African region lacks from Energy

Efficiency and Renewable Energies, on both management and knowledge.

The Succeed Network project intends to tackle down this problem by involving 5 public Higher Education Institutions, that jointly will foster their institutional capacities, improve their academic offer on energy issues, foster the regional cooperation, and promote the interaction of both Local and national stakeholders in this field.
